

# 118+ free resources to learn Javascript

by Tran Ngoc Tuan Anh at [Deluxe Blog Tips](#)

In the last couple of years, Javascript is always one of the [most popular programming languages](#). In fact, it's the [top programming language](#) on Github, according to the number of active repositories. Javascript is a client-side programming language that runs inside a client browser and process commands on client computer rather than server. But since the born of [Node.js](#), we can run Javascript on the server and build websites or highly scalable web applications and software by Javascript. There is no doubt that Javascript will be the leading technology in the next several years. If you are looking to grow your career, or desire to work in IT field then you can't miss out on JavaScript. It's not only a great fun to learn JavaScript, but also a rewarding career with bright future prospects.

If you are looking to grow your career, or desire to work in IT field then you can't miss out on JavaScript. It's not only a great fun to learn JavaScript, but also a rewarding career with bright future prospects. That explains the huge number of online Javascript courses as well as books, online training videos, and tutorials. Some of them are expensive, some are not. To make it easier for you, we've compiled **118+ best free resources to learn JavaScript** that will get you started by teaching all essential aspects of JavaScript coding and get you programming instantly.

Note that this list doesn't contain materials for Javascript libraries or frameworks. Only pure Javascript!
